

About the Temecula Valley Foundation For Excellence in Education

The **Temecula Valley Foundation for Excellence in Education (TVFEE)** was established to complement and enhance the opportunities of students and staff within the Temecula Valley Unified School District. The foundation seeks to provide funds and resources for programs not usually financed with tax dollars. Your generous support will help us build a foundation for continued student success.

Goals of the Temecula Valley Foundation for Excellence in Education include:

- Providing funds for programs such as scholarships and grants, which are beyond the financial resources of the school district.
- Encouraging excellence in learning through creative teaching.
- Promoting interaction between our schools and our communities.
- Creating and facilitating new opportunities for underserved areas of education, including the arts, music, and technology.

*It is through generous
sponsorships from local and
regional businesses that this
event is able to grow and
benefit the schools and students
of the Temecula Valley Unified
School District.*
